# Let's Plan a Party!

The second graders were very excited because their teacher told them that they could plan their class party to celebrate everyone reading 50 books.

Their teacher told them that the party would start at 9 o'clock and would last for one hour.

The students made a list of things they would like to do at the party.

Use the list to decide how they should plan to use all the time allowed for the party.

## Things to do at the Party:

- 15 minutes to play outside
- 10 minutes to dance
- 10 minutes to sing
- 15 minutes to eat cake and ice cream
- 10 minutes to play musical chairs
- 15 minutes to paint pictures about a favorite book
- 30 minutes to watch a short video
- 15 minutes to play bean toss
