

Name: _____ Student ID Number: _____ Grade: _____

Teacher: _____ School: _____ Date: _____

Math Wizard

You have been completing great work in math class this year.

Your average quiz score is 85! You have completed nine quizzes for the marking period. When putting the scores in order from least to greatest, the middle score of your quizzes is an 80, the most frequent score is a 75, and the lowest and highest scores have a difference of 30 points.

What were your scores for the marking period?

Student-led conferences are coming up, and you need to explain to your parent(s) what your scores really mean. Produce a visual to represent your scores.

What would you say about your math progress based on these scores?
