

The teacher will need to see all of your work. Check (x) off each one as you use it. Be sure to include the following:

- Pictures, charts, graphs, or t-tables that support your explanation
- A written explanation with detailed sentences
- The equation or number sentence
- The answer (Ask yourself: Is my answer reasonable? Why or why not?)
- The solution in more than one way or related to other situations

True or False?

Mr. Hall gave a quiz with ten true-false questions.
When he corrected the quizzes, two students,
who will remain anonymous, had identical answers.

Unfortunately for them, all of those answers were incorrect.

Does Mr. Hall have reason to be suspicious? Explain why or why not.

Would he be more or less suspicious if all the answers had been correct?

Use math language to explain your answer.
